Why Rocky? Gibraltar is also often referred to as 'The Rock'. It is a British Overseas Territory located on the southern end of the Iberian Peninsula at the entrance of the Mediterranean. It has an area of 6.8 square kilometres and is home to almost 30,000 Gibraltarians. The Rock of Gibraltar is 426m high and made of Jurassic limestone. The famous Barbary Apes (*Macaca sylvanus*) roam freely around the Upper Rock Nature Reserve.
